Scope Definition Document

Template from the Project Management Framework Guide, Section 5. Replace every [bracketed] item and delete the guidance lines in italics before issuing.

Project name	[Name]
Project code	[Code]
Client	[Client name]
Prepared by	[Project Manager]
Version and status	[v0.1] Draft
Date	[YYYY-MM-DD]
Client approver	[Name and role]

1. Business Context and Goals

[Describe the business problem, who has it and why solving it matters now. Then list the two or three goals the product must achieve.]

Guidance: write it in the client's words and keep it to one page.

2. Success Criteria and KPIs

ID	Success criterion	Target	How it is measured
SC-1	[Criterion]	[Target]	[Method and source]
SC-2	[Criterion]	[Target]	[Method and source]

3. Users and Roles

Role	Description	Main needs	Devices
[Role]	[Who they are]	[What they need to do]	[Web, iOS, Android]

4. In-Scope Features by Module

Every feature has acceptance criteria. A feature without them is not ready to be signed.

ID	Module	Feature	Description	Acceptance criteria	Priority
F-001	[Module]	[Feature]	[What it does]	[Given, when, then, or a checklist]	Must
F-002	[Module]	[Feature]	[What it does]	[Criteria]	Should

Priority uses Must, Should, Could or Won't (this release). Keep Must items to about 60% of total effort.

5. Out-of-Scope List

Anything not listed in Section 4 is out of scope. These items are called out explicitly because they are often assumed:

- [Item, for example native mobile apps, data migration, content writing]
- [Item]
- [Item]

6. MVP and Later Phases

Release	Features included	Reason
MVP	[Feature IDs of all Must items]	[Why these come first]
Release 2	[Feature IDs]	[Reason]
Later	[Feature IDs]	[Reason]

7. Integrations and Third-Party Services

Service	Purpose	Account owner	Cost and who pays	Needed by
[Payment gateway]	[Purpose]	[Client]	[Cost, client]	[Date]

8. Non-Functional Requirements

Area	Requirement
Performance	[For example, key pages load within a stated time]
Security	[Access control, data protection, authentication]
Languages	[Languages and text direction]
Devices and browsers	[Supported list]
Availability and backups	[Expectations]
Compliance	[Regulations that apply]
Accessibility	[Standard, if any]

9. Assumptions, Constraints and Dependencies

A changed assumption triggers re-estimation.

ID	Type	Statement	Owner	Impact if wrong
A-1	Assumption	[Statement]	[Name]	[Impact]
C-1	Constraint	[Statement]	[Name]	[Impact]
D-1	Dependency	[Client input or third-party item]	[Name]	[Impact]

10. Initial Risks

ID	Risk	Likelihood (1-3)	Impact (1-3)	Response	Owner
R-1	[Risk]	[n]	[n]	[Avoid, mitigate, transfer or accept]	[Name]

11. Glossary

Term	Meaning
[Term]	[Definition]
